# SERIES

10 X - 50 yard guarantee

The PRO PLUS Series™ is designed to meet the needs of the Bullseye and competitive shooter. With the ability to shoot ~2 inch groups at 50 yards you don't have to worry about your X count. The PRO PLUS™ is capable of shooting 10 X's in a row at 50 yards. So out shooting the gun won't be a problem. As usual we provide video testing footage showing the performance of our products to ensure you have complete confidence in the performance of your PRO PLUS 1911.

You don't need to worry about quality either. Accuracy X, Inc. only uses the highest quality parts and components. You'll not find MIM or CAST parts in our 1911s. In fact we use the very same parts from our legendary X Series™ 1911s to build our PRO Series™ pistols. We use our own forged slides and frames which are far stronger and more durable than

the cast ones used by others. The PRO PLUS Series™ from AXI is quite simply the best value in competitive shooting. PERIOD.

If your focus is performance, reliability and value then the PRO PLUS Series™ is what you've been looking for. We are now offering the PRO PLUS Series™ in **Wadgun** and **Metallic Sight** configurations for \$3995.00

Why pay more and get less. With the PRO PLUS Series™ you pay less and get MORE!
